FINE PRINT: A PDF version of the calendar will be emailed to the buyer with the calendar number stamped on it. Calendar numbers are assigned randomly (000 to 999). Each day's winner(s) will be the calendar number matching the winning Ohio Lotto Pick 3 number for that calendar day's **EVENING** drawing. If less than 1000 calendars are sold and a number is drawn that does not have an assigned calendar, a random drawing will be done from all purchasers. If more than 1000 are sold, and two (or more) people have the same calendar number, **BOTH** calendars/purchasers will win that prize or monetary equivalent if it is a low stock item! **The same calendar can win more than one day, and multiple calendars may be purchased for increased chances.** You do **NOT** have to be local to win, and will we notify you if you win.
